FRAGRANCE & BEAUTY PACKAGING

Faire la différence by coverpla

Par son offre de solutions packaging clés en main, Coverpla garantit des développements courts et économiques, créatifs et qualitatifs.

Au fil de ces pages, vous retrouverez les grands standards de flacons et capots et toutes les nouveautés chic et green de l'année.

Grâce au **mix and match** des composants, votre produit forge son identité, en ligne avec les codes de votre marque.

Puis, la magie de la personnalisation naît des décors et des parachèvements : laquage, métallisation, sérigraphie, tampographie, marquage à chaud..., jouez la couleur et les effets de matière par le gaufrage du capot, l'estampage, le marquage laser et pourquoi pas la gravure du verre, une signature singulière qui marque le paroxysme de la personnalisation.

Making a difference

Through its turnkey packaging solutions, Coverpla ensures fast, cost-effective, creative, and high-quality offerings.

Within these pages, you'll discover our core range of standard bottles and caps, as well as this year's innovative and sustainable product launches.

With the versatility of **mix-and-match** components, your product takes shape and aligns with your brand identity.

Then, let the magic of personalizing your bottle unfold with decorative finishes such as lacquering, metallization, screen printing, pad printing, hot stamping, or create a unique signature look with glass etching. Play with color and material effects by adding unique touches to one of our caps, such as embossing, laser marking, or other customizations, to create a truly distinctive look.

Differenziarsi

Con la sua gamma di soluzioni d'imballaggio chiavi in mano, Coverpla garantisce di aiutarvi a sviluppare i vostri progetti in tempi brevi ed in maniera economica, creativa e qualitativa.

In queste pagine troverete flaconi e tappi standard e tutte le novità chic e green dell'anno.

Grazie alla combinazione dei vari componenti, il vostro prodotto acquisisce la sua identità, in linea con il vostro marchio.

La magia della personalizzazione nasce poi dalle decorazioni e dalle rifiniture: verniciatura, metallizzazione, serigrafia, tampografia, stampa a caldo..., giochi di colore ed effetti materici attraverso il rilievo sui tappi, la stampa, la l'incisione laser e, perché no, l'incisione del vetro, una firma singolare che segna il culmine della personalizzazione.

違いの創出

コベルプラの注目すべき“すぐ使えるパッケージ商品”は創造的かつ高品質。また短期間で経済的な開発が可能です。

このカタログでは、ボトルやキャップの素晴らしい汎用品や、シックなグリーンイノベーションの数々をご紹介します。

各素材の組み合わせにより、御社のブランドアイデンティティに沿った製品を創造できます。

塗装、蒸着塗装、シルクスクリーン印刷、パッド印刷、ホットスタンプ、キャップへのエンボス加工、スタンピング、レーザーマーキング、さらにはガラスエンレービングによる色や素材の効果で、究極のカスタマイズを実現します。

Green, la belle attitude

Réduire, Réutiliser, Recycler, Réfléchir...

Chez Coverpla, on ne plaisante pas avec l'écoconception. Guidée par une solide politique RSE, l'entreprise vise la neutralité carbone en 2025. La réduction de l'empreinte carbone porte donc sur l'ensemble de la chaîne : gestion des énergies, recyclage, chasse aux rebuts, outils de production, sourcing des composants, décors neutres, modes de livraison...

Les flacons perdent du poids comme en témoigne le célèbre **Verdi**, un modèle léger et épuré dessiné par Coverpla.

A sélectionner au fil des pages, les flacons dotés de bagues à vis. Ils se multiplient en faveur d'une précieuse fonction ressourçable. Un habillage spécifique des pompes à vis les rend compatibles avec l'ensemble des capots du catalogue.

Dans cette belle famille des rechargeables : **Tess**, mini nomade de 15 ml, continue de séduire. Même succès pour le flacon **Vertigo**. Enfin, la famille des **Gala** s'enrichit d'un format 100 ml en version rechargeable. Du côté des capots, ils sont issus du recyclage, recyclables, compostables... Coverpla les injecte en surlyn recyclé sans inserts (**Saxon, Gator**), les propose en bois dotés d'inserts en liège (**Toodoo, Torrid**), en PHA biosourcé et biodégradable (**Lord**)...

Reduce, Reuse, Recycle, Rethink...

At Coverpla, eco-design is taken seriously. Guided by a strong CSR policy, the company is aiming for achieving carbon neutrality by 2025. Reducing our carbon footprint spans the entire value chain: energy management, recycling, waste reduction, machinery, component sourcing, neutral décor, and delivery methods.

Our bottles are becoming lighter, as exemplified by the iconic **Verdi**, a sleek and minimalist design by Coverpla.

Throughout these pages, you'll notice the increasing number of bottles featuring screw necks, designed for refillability. Specific fittings ensure compatibility with all caps in our catalog.

Among our range of refillable solutions, **Tess**, a compact, 15ml portable bottle, continues to be a popular choice. The **Vertigo** bottle has also garnered significant attention, and the **Gala** family has expanded with a 100ml refillable version. As for the caps, they're made from recycled, recyclable, or compostable materials. Coverpla manufactures them using recycled Surlyn without inserts (**Saxon, Gator**), offers wood versions with cork inserts (**Toodoo, Torrid**), and even produces caps from biosourced, biodegradable PHA (**Lord**)...

Home Fragrance & Beauty

Avec cette gamme COVERPLA revendique un véritable parti pris identitaire, à la fois esthétique et farouchement écoresponsable. Cette sélection de produits-signatures exclusifs marque une ouverture aux marchés de la Beauté et du HOME FRAGRANCE.

This curated selection of exclusive signature products opens the door to the skincare and home fragrance sectors. Both aesthetic and deeply eco-conscious, Coverpla asserts a strong identity and commitment to sustainability in this new space.

Les rechargeables

Parce que le flacon rechargeable est une valeur sûre de l'écoconception, Coverpla a choisi d'étoffer son offre. En voici dans tous les formats, allégés, recyclés... des flacons durables comme on les aime, à marier avec tous les capots du catalogue.

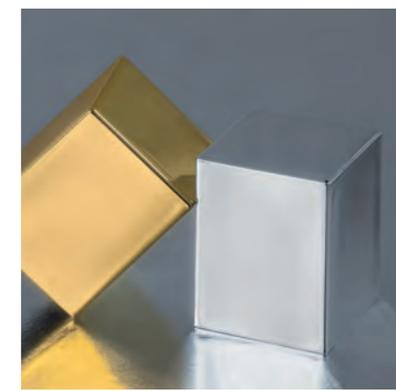

As refillable bottles are a cornerstone of eco-design, Coverpla has chosen to expand this offering. Here, you'll find a wide range of bottles in various formats—lightweight, recycled, and sustainable—that pair perfectly with every cap in the collection.

La personnalisation

Osez l'éclat du métal, la profondeur ou la transparence d'une laque, le relief de la gravure, le jeu des couleurs, le toucher du flocage, le surmoulage, la surprise des paillettes..., telle est la magie de la personnalisation.

Dare to embrace the brilliance of metal, the depth or transparency of lacquer, the texture of engraving, the play of colors, the feel of flocking, overmolding, and the surprise of glitter... this is the magic of personalization.

Le décor

Laissons le dernier mot au décor. Sérigraphie, tampographie, marquage à chaud... le flacon revêt là son identité de marque. Que la magie opère. Let the deco make the final statement. Silkscreening, pad printing, hot stamping... the bottle takes on its brand identity. And then, the magic happens.
